

# **CITY OF EDMOND**

# **STANDARD SPECIFICATIONS FOR CONSTRUCTION**

## **PURPOSE, INTENT AND INTERPRETATION OF SPECIFICATIONS**

The purpose of these Specifications is to establish, where applicable, minimum acceptable standards or a range for acceptable results. It is the intent of these Specifications that the Contractor be fully and exclusively responsible for producing an acceptable end product.

In producing this end product, the Contractor shall exercise control of the project. The city of Edmond personnel, except where specifically provided for herein, will make inspections to document that an acceptable product is being produced.

Interpretation of these specifications will be done in such a manner as to allow the Contractor to control his project to the greatest degree possible in producing an end result product that is in all respects acceptable. These Specifications should not, however, be interpreted in any manner that allows a Contractor to produce an unacceptable product or endanger the public. An acceptable end result product is the essence of the Contract. Only projects in substantial conformance with the Plans and Specifications will be accepted by the City of Edmond.

# TABLE OF CONTENTS

## SECTION 100 – GENERAL PROVISIONS

|        |  |             |
|--------|--|-------------|
| 101.00 | Definitions and Terms                        | Pages 1-10  |
| 102.00 | Bidding Requirements and Conditions          | Pages 11-14 |
| 103.00 | Award and Execution of Contract              | Pages 15-16 |
| 104.00 | Scope of Work                                | Pages 17-21 |
| 105.00 | Control of Work                              | Pages 22-29 |
| 106.00 | Control of Materials                         | Pages 30-35 |
| 107.00 | Legal Relations and Responsibility to Public | Pages 36-44 |
| 108.00 | Prosecution and Progress                     | Pages 45-49 |
| 109.00 | Measurement and Payment                      | Pages 50-56 |

## SECTION 200 – EARTHWORK AND ROADSIDE DEVELOPMENT

|        |   |             |
|--------|---|-------------|
| 201.00 | Clearing and Grubbing                       | Pages 1-3   |
| 202.00 | Excavation and Embankment                   | Pages 4-16  |
| 203.00 | Test Rolling                                | Page 17     |
| 205.00 | Salvaging Topsoil                           | Pages 18-19 |
| 209.00 | Machine Grading                             | Page 20     |
| 210.00 | Obliterating Abandoned Road                 | Page 21     |
| 220.00 | Temporary Erosion and Sediment Control      | Pages 22-23 |
| 221.00 | Temporary Sediment Control Slope Drains     | Page 24     |
| 222.00 | Temporary Sediment Control Bale Barriers    | Page 25     |
| 223.00 | Temporary Sediment Control Siltation Screen | Page 26     |
| 224.00 | Temporary Sediment Control Filters          | Page 27     |
| 225.00 | Temporary Sediment Control Basins           | Page 28     |
| 226.00 | Temporary Sediment Removal                  | Page 29     |
| 228.00 | Nylon Erosion Control Mat                   | Pages 30-32 |
| 229.00 | Ditch Liner Protection                      | Pages 33-34 |
| 230.00 | Sodding and Sprigging                       | Pages 35-41 |
| 231.00 | Planting                                    | Pages 42-49 |
| 232.00 | Seeding                                     | Pages 50-54 |
| 233.00 | Mulching                                    | Pages 55-59 |
| 234.00 | Fertilizing and Agricultural Liming         | Pages 60-61 |
| 240.00 | Removal of Trees                            | Page 62     |
| 241.00 | Mowing                                      | Page 63     |

## **SECTION 300 – BASES**

|        |                                      |             |
|--------|--------------------------------------|-------------|
| 301.00 | General Requirements for Bases       | Pages 1-5   |
| 303.00 | Aggregate Base                       | Pages 6-10  |
| 306.00 | Sub-Base                             | Page 11     |
| 307.00 | Lime Treated Sub-Grade               | Pages 12-18 |
| 308.00 | Sand Cushion                         | Page 19     |
| 309.00 | Rolling and Sprinkling               | Pages 20-21 |
| 310.00 | Sub-Grade                            | Pages 22-23 |
| 311.00 | Processing Existing Base and Surface | Pages 24-25 |
| 312.00 | Portland Cement Treated Base         | Pages 26-31 |
| 317.00 | Fly Ash Modified Sub-Grade           | Pages 32-37 |

## **SECTION 400 – SURFACING**

|        |   |             |
|--------|---|-------------|
| 401.00 | General Requirements for Surfaces                     | Pages 1-2   |
| 403.00 | Traffic Bound Surface Course                          | Pages 3-4   |
| 405.00 | Asphalt Surface Course (Hot Mix-Cold Laid)            | Pages 5-7   |
| 407.00 | Tack Coat   | Pages 8-9   |
| 408.00 | Prime Coat  | Pages 10-11 |
| 411.00 | Plant Mix Asphalt Concrete Pavement                   | Pages 12-18 |
| 414.00 | Portland Cement Concrete Pavement                     | Pages 19-39 |
| 417.00 | Cold Milling Pavement                                 | Pages 40-41 |
| 419.00 | Concrete Joint Rehabilitation                         | Pages 42-44 |
| 420.00 | Fabric Reinforcement for Asphalt<br>Concrete Pavement | Pages 45-47 |
| 425.00 | Diamond Grinding Concrete Pavement                    | Pages 48-50 |

## **SECTION 500 – INCIDENTAL STRUCTURES**

|        |   |             |
|--------|---|-------------|
| 501.00 | Excavation for Structures                                     | Pages 1-3   |
| 508.00 | Concrete Culverts, Headwalls and Retaining Walls              | Pages 4-6   |
| 509.00 | Structural Concrete   | Pages 7-20  |
| 511.00 | Reinforcing Steel   | Pages 21-24 |
| 514.00 | Timber, Concrete and Steel Piles                              | Pages 25-34 |
| 515.00 | Penetrating Water Repellent Treatment<br>of Concrete Surfaces | Pages 35-37 |
| 516.00 | Drilled Shaft Foundations                                     | Pages 38-45 |
| 529.00 | Low Strength Backfill Material                                | Pages 46-48 |

## **SECTION 600 – GENERAL CONSTRUCTION**

|        |   |             |
|--------|---|-------------|
| 601.00 | Riprap  | Pages 1-4   |
| 602.00 | Gabions   | Pages 5-7   |
| 609.00 | Integral Curb, Combined Curb and Gutter<br>and Header Curbing                   | Pages 8-10  |
| 610.00 | Concrete Sidewalks, Driveways and<br>Dividing Strip                             | Pages 11-12 |
| 611.00 | Manholes, Drop or Curb Inlets,<br>and Junction Boxes                            | Pages 13-18 |
| 612.00 | Adjustment of Existing Structures   | Pages 19-22 |
| 613.00 | Drainage Conduits   | Pages 23-32 |
| 615.00 | Sanitary Sewer  | Pages 33-43 |
| 616.00 | Water Pipe and Fittings   | Pages 44-51 |
| 619.00 | Removal of Structures and Obstructions  | Pages 52-55 |
| 622.00 | Pipe Railing and Miscellaneous Pipe Work  | Pages 56-57 |
| 623.00 | Guard Rail and Guide Posts  | Pages 58-60 |
| 624.00 | Fences  | Pages 61-66 |
| 625.00 | Removal and Storage or Reconstruction<br>of Fencing, Guard Rail and Guide Posts | Pages 67-68 |
| 642.00 | Contractor Construction Staking   | Pages 69-70 |
