STANDARD PRICING SCHEDULE R-1
RESIDENTIAL SERVICE

AVAILABILITY

Available for electric service utilized for residential purposes in one- and two-family dwellings, including condominiums, apartments and individually owned units which are attached. Single phase, 120/240 volt service shall be supplied through one point of delivery and measured through one meter. Three phase service will be considered on a case by case basis.

No commercial, resale, breakdown, auxiliary, or supplementary service permitted. Where existing duplexes or apartment houses are served through one meter under this rate, the Energy Charge blocks of this rate shall be multiplied by the number of apartments in the building.

CUSTOMER CHARGE

\$14.00 per meter per month.

ENERGY CHARGE

Summer Season (*Revenue Months of June - September*)

First 1,400 kWh per month \$0.0843 per metered kWh.

All Additional kWh per month \$0.0870 per metered kWh.

Winter Season (*Revenue Months of November - April*)

First 600 kWh per month \$0.0843 per metered kWh

All additional kWh per month \$0.0480 per metered kWh

Shoulder Season (*Revenue Months of May and October*)

All kWh per month \$0.0843 per metered kWh

GENERAL SERVICE TIME-OF-USE

MINIMUM CHARGE

The minimum monthly charge shall be the Customer Charge plus applicable rate riders.

FUEL COST ADJUSTMENT

See Standard Pricing Schedule FCA, Rider for Fuel Cost Adjustment.

TERM

Edmond Electric may require a written contract for a year or longer, containing minimum guarantees warranted by special circumstances or unusually large investments by Edmond Electric.

Customers who request to be changed to the General Service Time-of-Use rate from another rate will remain on the General Service Time-of-Use rate or the General Service rate for one year before being permitted to change rates again unless they demonstrate a permanent change in electric consumption.

SHEET NO. 5.1
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE PL-1
POWER AND LIGHT

AVAILABILITY

Available to medium and large commercial or industrial customers requiring three phase service. Service will be provided through one meter at one standard secondary voltage. No resale, breakdown, auxiliary or supplementary service permitted.

CUSTOMER CHARGE

\$80.00 per meter per month

CAPACITY CHARGE

Summer Season (*Revenue Months of June – October*)

Billing Demand per month \$13.37 per metered kW

Winter Season (*Revenue Months of November – May*)

Billing Demand per month \$8.20 per metered kW

ENERGY CHARGE

All kWh per month \$0.0413 per kWh

DEFINITION OF SEASON

Summer Season: The five Revenue Months of June through October.

Winter Season: The seven Revenue Months of November through May.

DETERMINATION OF MAXIMUM DEMAND

The Customer's Maximum Demand shall be the maximum rate at which energy is used for any period of 15 consecutive minutes of the month for which the bill is rendered as shown by the Edmond Electric's demand meter.

SHEET NO. 5.2
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE PL-1
POWER AND LIGHT

DETERMINATION OF BILLING DEMAND

The Billing Demand upon which the Capacity Charge is based shall be the Maximum Demand as determined above corrected for power factor, set forth under Power Factor Clause; provided that no Billing Demand shall be less than 25 percent of the highest Summer Season Maximum Demand corrected for power factor previously determined during the 12 months ending with the current month.

POWER FACTOR CLAUSE

The Customer shall take and use power in such manner that the power factor at the meter is as near 100 percent as possible. When the average power factor as determined by continuous measurement of lagging reactive kilovolt-ampere hours is less than 85 percent, the Billing Demand shall be determined by multiplying the Maximum Demand by 85 and dividing this product by the actual average power factor. Edmond Electric may install suitable measuring equipment at the metering point for any customer to determine the customer's monthly maximum kVA_r if, in its sole judgment, such equipment is necessary.

MINIMUM CHARGE

The minimum monthly charge shall be the Customer Charge, plus the applicable Capacity Charge plus any applicable rate riders.

FUEL COST ADJUSTMENT

See Standard Pricing Schedule FCA, Rider for Fuel Cost Adjustment.

SHEET NO. 5.3
EFFECTIVE DATE 11-1-14

Winter Season: The seven Revenue Months of November through May.

SHEET NO. 6.2
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE PL-TOU
POWER AND LIGHT TIME OF-USE

DETERMINATION OF MAXIMUM DEMAND

The customer's Maximum Demand shall be the maximum rate at which energy is used for any period of 15 consecutive minutes of the month for which the bill is rendered as shown by Edmond Electric's demand meter.

DETERMINATION OF MAXIMUM BILLING DEMAND

The Maximum Billing Demand upon which the Capacity Charge is based shall be the Maximum Demand as determined above corrected for power factor, as set forth under Power Factor Clause; provided that no Maximum Billing Demand shall be less than 25 percent of the highest Summer Season On-Peak Hours Demand corrected for power factor previously determined during the 12 months ending with the current month.

POWER FACTOR CLAUSE

The consumer shall at all times take and use power in such manner that the power factor at the meter shall be as near 100 percent as possible, but when the average power factor as determined by continuous measurement of lagging reactive kilovolt-ampere hours is less than 85 percent, the Billing Demand shall be determined by multiplying the Maximum Demand by 85 and dividing this product by the actual average power factor. Edmond Electric may install suitable measuring equipment at the metering point for any customer to determine the customer's monthly maximum kVAr if, in its sole judgment, such equipment is necessary.

MINIMUM CHARGE

The minimum monthly charge shall be the Customer Charge plus the applicable Capacity Charge plus any applicable rate riders.

FUEL COST ADJUSTMENT

The minimum monthly charge shall be the Customer Charge, plus the applicable Capacity Charge plus any applicable rate riders.

FUEL COST ADJUSTMENT

See Standard Pricing Schedule FCA, Rider for Fuel Cost Adjustment.

TERM

Edmond Electric may require a written contract for a year or longer containing minimum guarantees warranted by special circumstances or unusually large investments by Edmond Electric.

Customers receiving service on the Large Power and Light Time-of-Use Rate will remain on the Large Power and Light Time-of-Use Rate as long as their annual kWh consumption is 15,000,000 kWh or greater.

SHEET NO. 8.1
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE PS-ND-1
PUBLIC SCHOOLS – NON DEMAND

AVAILABILITY

Available to public school facilities requiring either single phase or three phase service. Service will be at one standard secondary voltage. No resale, breakdown, auxiliary, or supplementary service permitted.

The application of this rate is limited to consumers meeting one of the following conditions:

- 1) Annual Maximum Kilowatt Demand (AkW) during the last 12 months must be greater than or equal to 10 but less than 600 with a Load Factor less than 25%. The Load Factor calculation is:

$$\text{Load Factor} = \frac{\text{Total Annual KWh}}{(\text{AkW} \times 8760)}$$

Or;

- 2) AkW must be less than 10

Consumers who are metered with equipment that does not measure the monthly Maximum Demands are considered as having not met the above conditions. Edmond Electric shall install metering equipment that measures monthly Maximum Demands if, in its sole judgment, such equipment is necessary to determine whether the above conditions have been met.

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE OAL-1
OUTDOOR AREA LIGHTING

POLE CHARGES

If a new wood support pole for the area light is required, the above monthly rate shall be increased as follows:

Wood Pole Height	Monthly Charge
30 foot	\$5.37
35 foot	\$7.24
40 foot	\$8.01
45 foot	\$8.97
50 foot	\$9.93

ORNAMENTAL TYPE LIGHTING FIXTURES

Edmond Electric also offers ornamental lighting fixtures at the following price:

Type	Monthly Rate	Monthly kWh for Fuel Cost Adjustment
9,500 Lumens, High Pressure Sodium contemporary post top luminaire on a 24 foot fiberglass pole	\$22.84	41

ADDITIONAL REQUIREMENTS

All requests for outdoor area lighting will be reviewed by Edmond Electric to ensure the desired locations are readily accessible for installation and maintenance. If so, Edmond Electric will provide the Customer or HOA a Work Authorization outlining the location, work to be done and any costs associated with the extension of electric facilities. For any light locations not within ten (10) feet of an existing power source,

SHEET NO. 10.3
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE OAL-1
OUTDOOR AREA LIGHTING

ADDITIONAL REQUIREMENTS (cont.)

Edmond Electric will charge a not to exceed cost, including labor, material and fleet charges, for the extension of electric facilities.

The Customer or HOA must return the signed Work Authorization to Edmond Electric. By signing the Work Authorization, the Customer or HOA has 1) authorized Edmond Electric to begin installation of the requested lighting, 2) agreed to pay any not to exceed amount stated in the Work Authorization. Edmond Electric will not begin installation without a signed Work Authorization. The entire not to exceed amount must be paid in full prior to energizing the lights.

In the event an HOA is requesting the installation of outdoor area lighting, a signed agreement from each affected property owner authorizing the placement of lights within the right of way adjacent to, within existing easements on or directly on their property must accompany the signed Work Authorization form. The Work Authorization form must be signed by the homeowners association President or their duly authorized representative.

Additionally, for all outdoor area lighting installations,

- 1) Edmond Electric shall be furnished, without cost, all rights, permits and easements necessary to permit the installation and maintenance of Edmond Electric's facilities on private property.
- 2) The facilities furnished by Edmond Electric shall remain the property of Edmond Electric.
- 3) The facilities shall be installed at a mutually agreeable location on the Customer's or property owners premises.

SHEET NO. 10.4
EFFECTIVE DATE 11-1-14

CITY OF EDMOND
Public Works Authority

STANDARD PRICING SCHEDULE OAL-1
OUTDOOR AREA LIGHTING

BURNING SCHEDULE

The standard schedule shall be for dusk-to-dawn service and shall include approximately 4,200 hours of service per year. Edmond Electric will use reasonable care to maintain such service, but Edmond Electric will not be obligated to patrol to determine required lamp replacement or other maintenance of the facilities used for service under this schedule. Upon notification of any outage or required maintenance of such facilities, Edmond Electric shall be allowed a reasonable length of time to restore normal service during regular working hours.

FUEL COST ADJUSTMENT

See Standard Pricing Schedule FCA, Rider for Fuel Cost Adjustment.

TERM

The customer shall contract for service on the standard contract form for a period of not less than three years.

**STANDARD PRICING SCHEDULE PSWR
PURE AND SIMPLE WIND RIDER**

AVAILABILITY

This rider is closed to new customers and only available to customers who elected for this rate prior to August 25, 2014. All provisions of the Customer's standard pricing schedule apply.

PURCHASE AMOUNT

Wind energy may be purchased for 100% of monthly usage or by fixed 100 kWh block increments.

WIND SELECTION CHARGE (WSC)

The price for each 100 kWh block will be \$0.27. Customers choosing the PSWR 100% option shall be billed at \$0.0027 per PSWR kWh with corresponding Fuel Cost Adjustment (FCA) exemptions (See Pricing Schedule FCA, Rider for Fuel Cost Adjustment). This price is in addition to the applicable standard pricing for each participant's total monthly billing. For purposes of FCA exemption, each block shall represent 100 kWh.

CITY OF EDMOND
Public Works Authority

**STANDARD PRICING SCHEDULE PSWR
PURE AND SIMPLE WIND RIDER**

SAMPLE CALCULATION:

A customer choosing the PSWR will have a typical calculation which includes: Customer Charge, applicable rate tariffs, PSWR Blocks, FCA charges, and applicable Sales Tax;

Example of undersubscribed residential Customer:

Mo. Subscribed kWh PSWR	-	700
Total customer Mo. kWh	-	850
Standard rate per kWh	-	\$0.0822
FCA per kWh	-	\$0.002041

Calculation:

Customer Charge		\$13.50	
Standard Tariff portion	-	\$0.0822 X 850	\$69.87
PSWR subscription	-	7 X \$0.27	\$ 1.89
FCA portion not offset by PSWR kWh	150 X \$0.002041		\$.31
City Sales Tax			<u>\$ 3.12</u>
			\$88.69

Example of an oversubscribed residential Customer:

Mo. Subscribed kWh PSWR	-	900
Total customer Mo. kWh	-	850
Standard rate per kWh	-	\$0.0822
FCA per kWh	-	\$0.002041

Calculation:

Customer Charge		\$13.50	
Standard Tariff portion	-	\$0.0822 X 850	\$69.87
PSWR subscription	-	9 X \$0.27	\$ 2.43
FCA (charge removed)			\$ 0.00
City Sales Tax			<u>\$ 3.12</u>
			\$88.92

**STANDARD PRICING SCHEDULE PSWR
PURE AND SIMPLE WIND RIDER**

FUEL COST ADJUSTMENT

All PSWR kWh is exempt from the FCA but any remaining monthly kWh over elected participation will be subject to the monthly FCA.

Example of exemption: A Power and Light Customer has subscribed to sixteen (16) blocks of PSWR. The Customer would be exempt from the FCA for 1600 kWh of usage (or 16 X 100 kWh) for the month. If a customer's total usage is less than their election for PSWR kWh for the month, a FCA credit shall be made for any unused PSWR subscription above actual customer monthly kWh consumption on the current month's charges. No FCA kWh credit shall be rolled forward or backward.

TERM

The term for all PSWR customers is for three (3) months. All PSWR customers shall provide Edmond Electric a thirty (30) day notification for any PSWR participation changes. Participation on this rider shall continue until termination from the program is specifically requested by the PSWR participant.

STANDARD PRICING SCHEDULE FCA RIDER FOR FUEL COST ADJUSTMENT

APPLICABILITY

This rider is applicable to and becomes a part of each retail rate schedule requiring a Fuel Cost Adjustment charge.

FUEL COST ADJUSTMENT

The monthly Fuel Cost Adjustment (FCA) will be calculated as follows:

$$FCA = [(A_w - S_k \times E_M + F_F + P_W) / P_K] - E_M$$

where;

A_w = Current month actual wholesale power cost

S_k = Current month actual kWh retail sales

E_M = Annual embedded energy cost, which is calculated by:

$$E_M = \text{Annual budgeted wholesale energy cost} / \text{Annual budgeted retail kWh sales}$$

F_F = Over or undercollection from previous month plus unanticipated adjustments or corrections to expenses or collections.

P_W = Following months projected wholesale power costs in dollars

P_K = Following months projected kWh retail sales

The Fuel Cost Adjustment shall be set monthly by the Director of Edmond Electric or his/her designee at a level to cover appropriate expenses and maintain adequate cash flow. The Director of Finance shall approve the Fuel Cost Adjustment prior to implementation.
