LARGE POWER AND LIGHT TIME-OF-USE**

DEFINITIONS

- On-Peak Hours:** From June 1 through October 31, beginning each day at 2:00 PM and ending at 7:00 PM local time, excluding Saturdays, Sundays, Independence Day and Labor Day as observed by the City.
- Off-Peak Hours:** All hours not defined as On-Peak hours.
- Summer Season:** The five Revenue Months of June through October.
- Winter Season:** The seven Revenue Months of November through May.

DETERMINATION OF MAXIMUM DEMAND

The customer's Maximum Demand shall be the maximum rate at which energy is used for any period of 15 consecutive minutes of the month for which the bill is rendered as shown by Edmond Electric demand meter.

DETERMINATION OF MAXIMUM BILLING DEMAND

The Maximum Billing Demand upon which the Capacity Charge is based shall be the Maximum Demand as determined above corrected for power factor, set forth under Power Factor Clause; provided that no Maximum Billing Demand shall be considered as less than 25 percent of the highest Summer Season On-Peak Hours Demand corrected for power factor previously determined during the 12 months ending with the current month.

**STANDARD PRICING SCHEDULE LPL-TOU
LARGE POWER AND LIGHT TIME-OF-USE**

POWER FACTOR CLAUSE

The consumer shall at all times take and use power in such manner that the power factor at the meter shall be as near 100 percent as possible, but when the average power factor as determined by continuous measurement of lagging reactive kilovolt-ampere hours is less than 85 percent, the Billing Demand shall be determined by multiplying the Maximum Demand by 85 and dividing this product by the actual average power factor. Edmond Electric may install suitable measuring equipment at the metering point for any customer to determine the customer's monthly maximum kVAr if, in its sole judgment, such equipment is necessary.

MINIMUM CHARGE

The minimum monthly charge shall be the Customer Charge, plus the applicable Capacity Charge plus any applicable rate riders.

FUEL COST ADJUSTMENT

See Standard Pricing Schedule FCA, Rider for Fuel Cost Adjustment.

TERM

Edmond Electric may require a written contract for a year or longer containing minimum guarantees warranted by special circumstances or unusually large investments by Edmond Electric.

Customers receiving service on the Large Power and Light Time-of-Use Rate will remain on the Large Power and Light Time-of-Use Rate as long as their annual kWh consumption is 15,000,000 kWh or greater.
